PERSONAL INFORMATION

Full Name : Normand Amry Bin Abdul Razak
Location : Bangi, Selangor, Malaysia
Phone : +60189066353
Email : amry0863@gmail.com
GitHub : https://github.com/NORMANDAMRY

PROFESSIONAL SUMMARY

Motivated and detail-oriented Diploma in Networking Technology student with extensive hands-on experience in full-stack development, backend API design, and cloud deployment. Successfully completed an 18-week internship at Consurv Technic, building and deploying 5+ production-grade systems spanning mobile, web, desktop, and serverless platforms. Strong foundational knowledge in network infrastructure, Linux administration, and security-conscious development. Demonstrated ability to rapidly learn 10+ new technologies and deliver measurable business impact.

EDUCATION

Diploma in Networking Technology

Universiti Kuala Lumpur (UniKL MIIT) | 2023 - Present

CGPA: 3.19. Coursework covers network infrastructure, systems administration, programming, and cybersecurity fundamentals.

Sijil Menengah Ugama (SMU) & Sijil Pelajaran Malaysia (SPM)

Maahad Muhammadi Tumpat | 2018 - 2022

CERTIFICATIONS

Certification

Red Hat System Administration I (RH124) | Red Hat | 2025 | Active

TECHNICAL SKILLS

Backend & API:	Python (FastAPI, REST APIs), WebSocket, JWT/OAuth, Supabase Edge Functions, Rate Limiting, RAG Pipelines
Frontend & Mobile:	React 18/19, TypeScript, Vite, Tailwind CSS, Kotlin Multiplatform, Jetpack Compose, Material 3, Electron
Databases:	PostgreSQL, SQLite, Room DB, ChromaDB (Vector DB), Supabase (Auth, Real-time Subscriptions)
Cloud & DevOps:	Supabase, Vercel, CI/CD Pipelines, Git/GitHub, Docker
Networking:	VLAN, Inter-VLAN Routing, OSPF, Static Routing, DHCP, NAT, ACL, Cisco Packet Tracer, PuTTY
System Admin:	Linux/Fedora Administration, Windows Server, PowerShell (WMI/CIM), Hardware Deployment
Languages:	Python, TypeScript, JavaScript, Kotlin, C/C++, PowerShell, Shell Scripting
Competencies:	API Development, RESTful Services, Cloud Deployment, CI/CD, Serverless, Network Infrastructure, Agile

PROFESSIONAL EXPERIENCE

IT Deployment & Operations Specialist

Consurv Technic | June 2026 - July 2026

- Led deployment and configuration of 30+ laptops for Petrosains, generating RM20,000+ in profit through hardware supply, setup, and on-site support.
- Automated hardware inventory collection using PowerShell scripts (serial, CPU, RAM, storage, GPU, battery, network), reducing manual documentation time by 80%.
- Conducted network site visits at PGCC (Petronas), BCC, and STEM Hub Melaka, documenting 60+ IT assets and delivering infrastructure improvement reports.

RFQ Manager - Procurement Desktop Application

Consurv Technic | May 2026 - June 2026

- Built a full procurement workflow tool with JWT authentication (bcrypt), vendor management, and multi-step RFQ wizard using Electron, React 19, and SQLite.
- Implemented Kanban drag-and-drop board, side-by-side quote comparison, and PDF/Excel report export with auto-numbering.
- Deployed to 4 company workstations via Windows installer. Conducted UAT and delivered 2-hour training session.

Consurv Saudi Corporate Website

Consurv Technic | April 2026 - May 2026

- Built a bilingual (EN/AR) B2B corporate website with full RTL support across 11 responsive sections using React 18, TypeScript, and Tailwind CSS.
- Achieved 90+ Lighthouse scores across performance, accessibility, best practices, and SEO. Deployed live at consurv.sa

HRApp - Cross Platform HR Mobile Application

ConsurvTechnic | KualaLumpur | March 2026 - April 2026

- Developed 11+ modules for a production HR app including Attendance (QR check-in), Leave Management, Medical Claims, and Employee Directory.
- Implemented Supabase backend with PostgreSQL design, JWT auth, real-time subscriptions, offline sync with Room DB. 242 commits.
- Built Business Card Sharing with vCard QR code and Android share intent (WhatsApp, Telegram, Email).
- Optimized performance: cold start reduced by 30%, UI jank by 60%, APK size by 15MB.

ACADEMIC & PERSONAL PROJECTS

KrakenAi - Multi-Provider AI Assistant

ConsurvTechnic | April2026 - March 2026

- Designed and built a multi-provider LLM API gateway with FastAPI, supporting 6+ AI providers with unified request handling, rate limiting, and automatic failover.
- Implemented real-time streaming via WebSocket and Server-Sent Events, achieving sub-second first-token latency.
- Built a RAG pipeline using ChromaDB with 95%+ retrieval accuracy for context-aware responses from company knowledge base.
- Deployed 3 serverless functions on Supabase Edge Functions with validation, error handling, and caching (reduced response time by 35%).

Smart Following Robot

Microprocessor Project | May 2025

- Obstacle-detection and motion-tracking robot using Arduino and C++ with ultrasonic sensors.

CCTV Installation

MHLife Manjung | Final Year Project - November 2025

- Led CCTV installation and structured cable management for a commercial facility.
- Performed site survey, camera placement, and DVR/NVR configuration.

KEY ACHIEVEMENTS & IMPACT

Achievement	Impact
HRApp Development	11+ modules, 242 commits, 30% faster cold start
KrakenAi AI Gateway	6+ AI providers, 95%+ RAG accuracy, 35% faster responses
Consurv Saudi Website	90+ Lighthouse scores, live at consurv.sa
RFQ Manager	Full procurement workflow, deployed to 4 workstations
Petrosains Deployment	30+ laptops, RM20,000+ revenue
PowerShell Automation	80% reduction in manual documentation
Network Site Visits	60+ IT assets documented across 3 locations
Smart Following Robot	Arduino-based obstacle detection & motion tracking
